

## Security Declaration

In order for theft cover to be operative under your policy an insurer approved security device is required to be fitted to your vehicle and in full working order.

If such a device is not fitted we recommend **GAP Security** who can be contacted on **0800 783 2165** or at **www.gapsecurity.co.uk**. If you mention that you were referred to them by us they will give you a discount on any security device purchased.

### Your Details
